Pilot Information File

PIF #: 2010-10

PIF Date: 13-Dec-2010

Subject: The PIF System

PIF 2010-10 The PIF System

Pilot Information Files (PIFs) are mandatory reading for all members. The dispatch system is our means of enforcing this. All PIFs will be entered in the dispatch system, and each member will be required to read each new PIF before dispatching an aircraft. The dispatch system will be re-set annually to require all members to refresh his/her knowledge of each PIF.

Printed copies of the dispatch system PIFs will be kept in a PIF Notebook on the bookshelf in the pilots' lounge. Some dispatch system PIFs may require graphics, and these will be filed with the appropriate PIF in the notebook.

PIFs may also be presented on the FMFA website. The postings on the website may not be current.
